Single Hitter Assembly

Main Back Assembly

1. Find a flat/even surface to assemble the frame
2. Align the ends with the same number together
3. It is best to assemble the back outer shell first before attaching the vertical back braces (10-11 & 8-9)
4. Once the main frame is connected, tighten with hex bolts provided.
5. After main frame is assembled, mount the three back wheels to mounting plates with provided hardware

Wing Assembly

1. Place all pieces on flat surface.
2. Assemble the wings by putting the same numbers together, tighten with hex bolts provided.
3. Mount wheels to wings with hardware.
4. Attach wings to main back frame with wing hinge bolt and nuts.
 - a. Note the wing hinges will set on top of the main frame hinges.
 - b. Do not over tighten the hinge bolts and nuts, as you will not be able to open and close the wings.

Net Assembly

1. Start with the marked top front corners (top, front corners will be marked with flagging tape)
2. Attach flagged top front corners to top front frame corners with pre-attached clips.
3. Attach clips down the wings to the back main frame, followed by attaching the clips across the top bar of the main back frame.
4. Once top of netting is attached continue attaching the remaining clips from top down to bottom rail. Netting should be completely hung by this point.
5. Zip tie net to front wings vertically with provided zip ties, attach every 3 bars of netting.

Finish/Padding/Vinyl

- Cover wings with tubular padding and vinyl wrap using plastic ties (use plastic ties on vinyl wrap, NOT on safe foam padding)
- Clip vinyl backdrop / curtain to at back with snap clips

INCLUDED HARDWARE:

QUANTITY	DESCRIPTION
4	WING HINGE BOLTS
4	WING HINGE NUTS
20	WHEEL PLATE BOLTS
20	WHEEL PLATE NUTS
